## JAYCOX, REINEL ARCHITECTS Shands Jacksonville Medical Center

In response to advancements in surgical technology, Shands Jacksonville commissioned Jaycox, Reinel Architects to provide architectural services for the renovation of four operating rooms at their Downtown medical center.

All four rooms are being revamped to house state-of-the-art lighting, anesthesia equipment, air diffusers, automatic doors, wall finishes and integrated digital imaging equipment.

Headquartered in Jacksonville since 1989, Jaycox, Reinel's healthcare portfolio continues to expand with such clients as Mayo Clinic, Shands Jacksonville, and Summit Medical Office Buildings in Brunswick, Ga.

THE JOURNAL OF THE AIA  
ARTS & BUSINESS MAGAZINE  
MAY/JUNE 2007

"I partnered with William R. Jaycox, AIA, five years ago to form Jaycox, Reinel Architects. Our vision was to diversify the firm to include healthcare design services. We are now celebrating the fifth anniversary of our healthcare division. Shands is home to many of the healthcare projects I have completed in addition to work at Mayo Clinic, Memorial Healthcare, Baptist Medical Center and others; an accomplishment I am very proud of."
